Dear artisan,

A comprehensive range is one of the most important things for every wholesaler. With this mind, we are happy to announce that we have added **15 new colors** from Glass Alchemy in our assortment.

To celebrate this occasion we would like to offer you **20% discount for every new color** so that you can test them and convince yourself.

We want to inform you that these colours are from the test laboratory.

If these colours will be established in their product range or not depends on the demand.

Promotion period: 01.02.2019 - 28.02.2019
20%* discount on selected items!

[Onlineshop](#)

Tomacco is an earthy orange-red translucent cadmium based color. The shade and tone of Tomacco varies depending on the type of lighting.

[Art.-Nr.: 9431002](#)

Sea Breeze is a new transparent blue-green. This color looks green in rod form, with hints of blue through the edges.

[Art.-Nr.: 9431003](#)

Not quite as dark as Brilliant Blue, the Test Lab **[Royal Blue Shades](#)** are a rich, vibrant blue.

[Art.-Nr.: 9431004](#)

Darker and richer than Crippy, **Portland Green** has a high refractive index and optical clarity found in our Next-Gen Transparent line.

[Art.-Nr.: 9431005](#)

With the release of [Citron](#) and the development of this Pastel version, our goal is to give you two consistent options to replace our old, inconsistent Lemon Drop. Citron will always be transparent and the pastel version will always be pastel. This color will be available as Pastel Yellow in the Test Lab as we work on finalizing the Pastel Citron formula.

[Art.-Nr.: 9431006](#)

Just as the name suggests, this is a Pastel version of [Potion](#)!! Here is your chance to try out some of the formulations leading up to the Small Batch release of Pastel Potion.

[Art.-Nr.: 9431007](#)

Here's your chance to pick up some sweet transparent [orange shades](#). These Orange shades are cadmium based and are test batches of our Neo-Cad line.

[Art.-Nr.: 9431008](#)

We are continuing to build our Pastel Palette with the release of [Mystique](#)!! Darker than Ether, Mystique offers the same great working properties with a richer blue base.

[Art.-Nr.: 9431009](#)

Following the release of Antidote and the kickoff of our pastel palette, we are excited to bring you **Ether**, our newest pastel color!! This color has been in the Test Lab as Pastel blue for the past few months.

Art.-Nr.: 9431010

This OG UV color is better than ever. Low air content and a vibrant UV reaction make **Electric Flamingo** an all-time favorite.

Art.-Nr.: 9431011

Dusk is a beautiful, purple-blue color. Similar to some of the Neutral Shades that were in Thomas' Test Lab in 2017, Dusk has a dusky, smoky quality, adding a new neutral dynamic to the transparent Palette.

Art.-Nr.: 9431012

Brick Red is a cadmium based red. If you miss the color of Sangria, Brick Red is for you. This color will have similar working properties to our Neo-Cad line.

Art.-Nr.: 9431013

These [Blue Shades](#) are great glass at a great price. Not quite the same shade as any of our permanent palette, these Blue Shades will add something different to your work.

[Art.-Nr.: 9431014](#)

[Atlantis](#) is a beautiful transparent, reminiscent of our old Teal, 531 without the copper and potential for red reduction.

[Art.-Nr.: 9431015](#)

We are kicking off our new pastel palette with the release of [Antidote](#)!! This pastel green is a highly workable and compatible translucent color.

Antidote works really well in all flame types and has held up to every test the GAMA Board of Directors has put it through, from simple murrine to solid sculpture.

[Art.-Nr.: 9431016](#)
